

# A SMARTER WAY TO OPEN DOORS

The Brivo Onair Pass application lets you open doors with a smartphone. All you need is a Brivo Onair® account.

We believe that access control should be as easy as making a call. Opening doors with ID cards or key fobs is a thing of the past. Upgrade your access experience and unlock doors with a mobile device.

Brivo Onair Pass was designed to take ordinary daily tasks off your list so you can conveniently keep your facility secure. No more:

Issuing, reissuing or ordering new cards and key fobs when someone loses them

Creating credentials for different locations or premium amenities

Chasing down credentials from contractors or vendors at project completion

Unlocking doors by needing to be present at your facility

“Our residents appreciate the mobile solution, and our employees can now focus on delivering a great resident experience.”

Community IT Manager,  
Lifestyle Communities

Enjoy transferable user passes with no card reader necessary.

SAVES MONEY

CONVENIENT TO USE

Use on all your iOS and Android devices with mobile access for work, garage, gym or home.

Limit access to people on your Wifi, while having a peace of mind about unwanted card or key copies.

SECURE

Unlock your doors remotely and manage them from anywhere at anytime.

Enter properties with just a click and give mobile credentials to tenants to access their apartments.

## TYPICAL WAYS YOU CAN USE BRIVO ONAIR PASS

Open the building garage as you approach your parking area and get access to the office.

Provide contractors or vendors easy to revoke short-term mobile credentials.

Call us at 1.866.692.7486 to schedule a demo. Discover how Brivo Onair and Brivo Onair Pass can simplify building access control, secure your assets and protect your people.
