brivo onair®

Brivo Onair® is a software-as-a-service access control and video surveillance platform. It was designed from the ground up to easily deploy, update and be managed remotely.

Brivo Onair combines access control and video surveillance to put your customers in control of their facilities from anywhere and from any device.

Brivo Onair is ideal for those customers looking to:

- Unlock doors remotely
- Monitor who comes into their building
- Manage multiple doors and locations
- Avoid re-keying or issuing new key fobs
- Restrict access to certain employees at specific times
- Deploy access control using either proprietary or open standard hardware
- Select the credential, reader and lock brands of their choice
- Maintain and administer their access control system remotely

Supported Readers*	Supported Control Panels*	Supported Credentials*
Wiegand readers	Brivo ACS5000-E Series	Mobile Application Credential
Biometrics devices	Brivo ACS6000-E Series	Proximity Card
OSDP	Brivo ACS-IPDC-E Series	PIV Card
